

# AVON CLASS

## WELCOME TO OUR NEW BLOG!

It has been a very busy half term in Avon class. We have spent a long time getting used to new routines and really thinking how we can be Ready, Respectful and Safe in all we do.

A lot of our reading, writing and music has been around Jack and the Beanstalk and other traditional tales. The songs we have been learning are certainly very catchy! We have enjoyed using the Maths Kits to help our learning. We have found new ways to use simple lollisticks to help with bigger numbers!

As part of kindness week we have started a kindness book where we write down when we notice someone being kind.

It would be nice to share some stories from home too so please always let me know if you would like to add anything. I am always available before and after school so please feel free to drop in.

Miss Blackhall

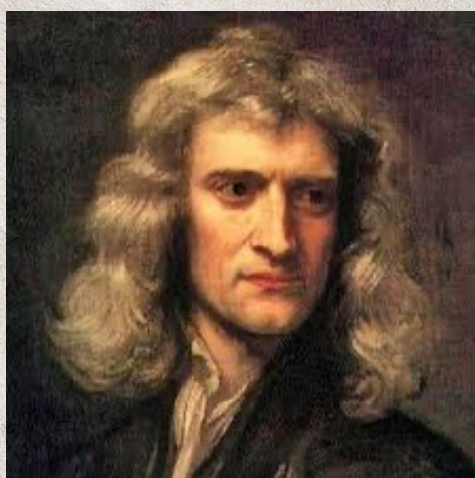

## SIR ISAAC NEWTON

Our history and science topic has looked at the life and work of Sir Isaac Newton. We were amazed at the different discoveries and inventions he made during his life.

Inspired by Isaac Newton we carried our science experiments on light and prisms. It was good fun making the classroom as dark as possible. We also tested out gravity by making our own helicopter spinners. We found out the heavier the spinner the faster it dropped.

## ABBEY VISIT AND MASS

We joined with Venford class to visit the Abbey ahead of Mass. We met with Fr Francis who taught us all about the parts of Mass. We even got to look at the very precious vestments worn at special times during the year. After this we went on our 'creation walk' looking at all the beauty of the local area.
